#1 Media Darling

with over 10.000 delightful press comments every year

"The beauty of sex toys is that they fit in your bedside table, but not in a drawer. The Satisfyer 'Elastic Game' is not a classic double dildo, but it meets the most important criterion: double penetration. The 22-centimetre-long silicone toy has two separately controllable motors with 10 vibration programmes each."

COSMOPOLITAN (04/23)

"The internet-famous 'Satisfyer Pro 2' because if you somehow *don't* already own this oral-sex-mimicking godsend, it's time. Take it from the thousands of happy souls who've used it: this clitoral stimulator will leave you breathless and quaking with its powerful air-pulsing tech."

BuzzFeed (02/23)

"A pressure wave vibrator like the 'Satisfyer Pro 2' is one of the most used sex toys among women, you'll soon feel why!"

Women'sHealth (02/23)

"The Satisfyer 'Cutie Heart' mini pressure wave vibrator gives you lots of love and comes in a particularly cute heart-shaped design. But the innocent cover is deceptive: inside its 8 cm small shell are two powerful, separately controllable motors that even work in the bathtub. Choose between 12 vibration levels and 11 pressure wave intensities and find out what makes your heart beat faster."

COSMOPOLITAN (03/23)

"A pressure wave vibrator like the 'Satisfyer Pro 2' is a sex toy with quite dreamlike qualities."

Women'sHealth (01/23)

"A super-powerful clitoral suction vibrator that just happens to look cute AF? We're in. This best-selling vibe from Satisfyer works by creating a vacuum seal over your clitoris and using suction to create 'touchless massage.'"

COSMOPOLITAN (04/23)

"Satisfyer is known for its clitoral-suction sex toys, so when it released a wand toy, we figured it had to be good. Spoiler alert: The Wand-er Woman Wand Vibrator does not disappoint. This toy was made for all genders and will give a penis the ride of its life — try it on testicles and other erogenous areas, too, if you dare. It's waterproof, too, so feel free to take it in the bathtub."

allure (01/23)

"This futuristic suction vibrator uses pressure waves and vibrations for truly out-of-this-world clit stimulation. You can control it using the free Satisfyer app, which has a cool feature that allows you to transform ambient noise into vibrations. So you can set up your sexiest playlist, and your vibrator will pick up on the rhythm. How cool is that? But if that sounds overly complicated, don't worry: you can also just use the buttons."

COSMOPOLITAN (01/23)

"We like this 'Power Ring' from Satisfyer because it's simple, well-made and features a clitoris-stimulating vibration unit on the top. Once erect, place the 'Power Ring' at the base of his shaft and enjoy. There are ten vibration modes, and the whole device is waterproof for use in the shower or even submerged in the bath."

RollingStone (01/23)

"Long-distance couples don't have to miss out on oral sex. The open end of this ergonomic suction toy pulses the clitoris with air, mimicking the feeling of oral sex with knee-weakening accuracy. When your partner opens the brand's app, they can select from 11 intensities and 10 vibration patterns to tease you toward climax. And since this toy is waterproof, you can even enjoy a digital tryst in the bath."

COSMOPOLITAN (01/23)

"The success of the 'Satisfyer Pro 2 Generation 3' came from the hand of the previously unknown 'air pulse' technology applied to clitoral suction and over time the firm has evolved to shape the new model belonging to the third generation and that adds a new modernity to its functions, the 'liquid air' function."

Women'sHealth (03/23)

"One of the most popular new features among Satisfyer users over the past year has been Remotyca's erotic stories, one of the features of the Satisfyer Connect app. 'Listening to these types of stories in moments of self-exploration helps to create a unique experience, as a complement to what a sex toy alone can offer,' Satisfyer says."

GLAMOUR (01/23)

"We couldn't have a list of the best clitoral vibrators without including the 'Satisfyer Pro 2'. With a staggering 57,000 reviews (and counting), this viral Amazon hit belongs in the clitoral vibrator hall of fame. Reviews are filled with laugh-out-loud gems that will convince you to pull the trigger. One satisfied reviewer said it left her "needing an exorcism" and another claimed to "feel colors and smell numbers." All we can say is: Sign us up!"

REFINERY29 (01/23)

#1 Media Darling Around the Globe

"There's also the option of giving yourself a hands-free orgasm. White says you can take pleasure outside of the bedroom with tools like remote-controlled panty vibrators like the 'Satisfyer Little Secret Connect App'. 'Toys like this will allow you to experience pleasure in new places or while on-the-go,' she says."

BUSTLE (11/22)

"Patience is the key word here, because finding the A-spot is not that easy. But with the help of a sexologist or the right toy, it's no problem. The 'Satisfyer A-Mazing' was specially developed for this purpose: its narrow, flexible tip stimulates your A-spot and gives you wonderful aaaaaahs."

COSMOPOLITAN (10/22)

"Based on thousands of reviews, it seems like women all over the world love the Satisfyer 1 Next Generation, and it's easy to see why — the toy makes it feel like someone is literally blowing and sucking on your clit. No big deal. With eleven different stimulation modes, waterproof material, and plenty of suction, this sex toy is bound to make you moan. But fear not — it also has a 'whisper' feature if you need to be discreet."

elite daily (09/22)

"With its small size and sleek shape, this 'Purple Pleasure' offers 15 vibration programs and a silent mode. Note that it is also waterproof to climax even in the shower."

marie claire (08/22)

"The Satisfyer is a fan-favorite suction vibrator that's consistently one of the most bought by R29 readers. The suction has 11 different modes, and according to reviews, the motor is 'whisper quiet.' Even better than that? It can be purchased with Amazon Prime Delivery, so if you're impatient to get your orgasm on and looking for a toy to order right now, this one will arrive in a timely fashion."

REFINERY29 (06/22)

"The Satisfyer Traveler, the ideal travel companion thanks to its small size. It also benefits from a magnetic cap and a silent motor to enjoy yourself in all discretion."

COSMOPOLITAN (06/22)

"A tingling vacuum paired with tense pulsations stimulates the clitoris without contact - hello explosive climaxes!"

freundin (06/22)

"In the Satisfyer family, here is the travel format: the 'Satisfyer Pro Traveler'. The non-contact technology by pressure waves allowing to stimulate the clitoris is the same as for the previous versions, but what really changes is the format and the box which allows to travel with its sextoy, incognito."

marie claire (06/22)

"ONE ORGASM better than ten doctors. As sexologist Megwyn White explains, who also serves as director of the Education at sex aid company Satisfyer, regular orgasms can promote healthy hormone balance."

ELLE (05/22)

"Satisfyer recommends the 'Hot Lover', which is slightly heated to enhance sensations. Its two motors can be controlled independently, and its shape is great for stimulating the G-spot."

COSMOPOLITAN (04/22)

"Perfect for long-distance couples or those who are into a little ~voyeurism~, this panty vibe from Satisfyer can be controlled through the Satisfyer Connect App, meaning your partner can control your sensations from miles away, or discreetly from their phone or Apple Watch. Kinky!"

COSMOPOLITAN (03/22)

"Sex tech brand Satisfyer had a number of vibrators on display this year.. The 'Pro 2' is one of Satisfyer's most popular offerings."

Sun (01/22)

"The silicone of the 'Satisfyer menstrual cup' is particularly soft - which can be a blessing for menstruators with a weak pelvic floor or slight or former vaginismus."

COSMOPOLITAN (01/22)

"In the world of sex toys, this design is pretty revolutionary. It sits within a whole new realm of toy which uses pulsing sonar vibrations to offer heightened pleasure which replicates the feeling of oral sex."

GLAMOUR (01/21)

"Best toy 2021! The 'Satisfyer Pro 2' is astonishingly impressive and it's quiet enough to be used in a shared house."

INDEPENDENT (08/21)

"Satisfyer cock rings are widely regarded as some of the best when it comes to giving you more bang (literally) for your buck. It's made from high-quality silicone which feels soft on the skin and offers up some seriously intense vibrations."

GLAMOUR (02/21)

"Clitoral suction devices from Satisfyer have caused a real boom and revolutionized women's sex lives."

marie claire (04/21)

"Today, we celebrate Love!"

VOGUE (05/21)

"A sweet treat indeed. This ice cream-shaped vibrator uses rotating top nibs that are designed to swivel at 10 different speeds and vibrations to bring you to a climax."
